Intro to Intelligent Robotics Demo Review Spring 2003

Student Name: _____ Review for Team: _____

What basic strategy did the team appear to be following?

Did the hardware design seem appropriate for that strategy?

Did the software seem to be handling the situations the robot encountered?

Did the robot seem to get off course at any point? If so, did it recover?

How successful was the robot at completing its task? (Rate from 0-12 the number of successful moves and comment on its success.)
